

MEDIA KIT 2021

A go-to magazine for the modern foodservice industry for 26 years now, Ristorando is organised in multiple areas: collective foodservice (corporate, schools, healthcare facilities) and modern commercial foodservice (motorways, airports, railways, hotels and hotel chains). Each issue provides a careful analysis of market trends and the current regulatory framework, as well as constant updates on contracts, tenders and new openings. This formula made Ristorando a useful tool to keep industry operators up to date, as well as a strategic meeting point between supply and demand.
